IP44

Pergolight is a small 12v MR16 20-35w downlight for illuminating a seating area or feature below a tree, arbour or pergola. It has an open base and accepts a clip-on MR16 accessory, such as a spread lens over a hanging basket, a frosted lens or glare louvre over a seating area or a moonlighting filter for hanging from trees. **Pergolight** is available in copper (which weathers naturally), silver and rustic brown powder-coated aluminium. Use a 20w 60° MR16 halogen lamp or **MR16LED3WW** i.e.d. lamp for subtle lighting. (Order separately)

Moonray decorative hanging downlight has a perforated barrel which combines a downlighting beam with pinpoints of light through the side to add fun and sparkle to a garden lighting scheme. **Moonrays** may be used as downlighters over a table, along a pergola walkway or hanging from tree branches. They have a 1m cable, an open base and can accommodate a clip-on MR16 accessory such as a frosted lens, glare louvre or colour filter. A 20w 38° halogen lamp or **MR16LED3WW** i.e.d. module is recommended (order separately).
