

E1072TL- Nimbus 70 Bollard Light with Louvres - Teak

Description

Elipta Teak bollard lights use timber from a sustainable source, organically oiled during production to enhance and protect the grain. They will weather naturally in the garden; further oil, stain or varnish treatments may be applied by the user. Teak bollard lights may be bolted to paving and slabs or to an optional ground mount which can be installed in concrete prior to electrical installation. An optional galvanised ground spike is available for installation in planting and lawn areas.

Colour/ Finish	Natural Teak
Exterior Dimensions	700mm tall and 100mm wide.

IP44	Retrofit LED	240v E27
Pre-wired 2m	Wide beam	

Installation guidelines

Requires installation by a qualified electrician. 240v cable connection via junction box outside the base of the fitting. Using a single RCD for large numbers of 240v fittings is not recommended due to the risk of nuisance tripping. We advise the use of separate RCD protection for each circuit and a maximum of 12 fittings per RCD.

**2 YEAR
WARRANTY**

Exclusions: Damage by machinery, animals or the use of incorrect cleaning materials. Corrosion due to exposure to salt or chlorine. Damage due to incorrect installation practices. Responsibility for 3rd party cost; indirect or consequential loss
