

E1142T Cirrus 45 Bollard Light - Teak

Elipta Teak bollard lights use timber from a sustainable source, organically oiled during production to enhance and protect the grain. They will weather naturally in the garden; further oil, stain or varnish treatments may be applied by the user. Teak bollard lights may be bolted to paving and slabs or to an optional ground-mount which can be installed in concrete prior to electrical installation. An optional galvanised ground spike is available for installation in planting and lawn areas.

PHYSICAL DATA

- Height 450mm
- Width 100mm (top) - 136mm (base) square
- IP44

ELECTRICAL DATA

- 220 - 240v AC
- E27 lamp fitting

COMPATIBLE LAMPS (purchase separately)

- E27 LED candle lamp 7-watt
- E27 Compact fluorescent 20-watt max

INSTALLATION

Pre-wired with 2m rubber cable for connection via T9969 underground joint kit or T9961 3 pole IP68 inline connector. **Using a single RCD for large numbers of 240v fittings is not recommended due to the risk of nuisance tripping. We advise the use of separate RCD protection for each circuit and a maximum of 12 fittings per RCD.**

COMPLIANCE & WARRANTY

- 2 year warranty
- CE / RoHS Compliant
