

E8011L- Smoothie Recessed Light - Stainless Steel - 12v

Description

E8011L is a stylish 12v recessed light for illuminating steps or patios which can take a choice of low energy led lamps. Order lamps separately. Smoothie is fitted with a flush frosted lens as standard to diffuse the lighting. The light is located by an "O" ring on the body into a sleeve tube so that no external screw fixings are visible. Remember that recessed steplights are in effect recessed spotlights - avoid using them facing viewpoints.

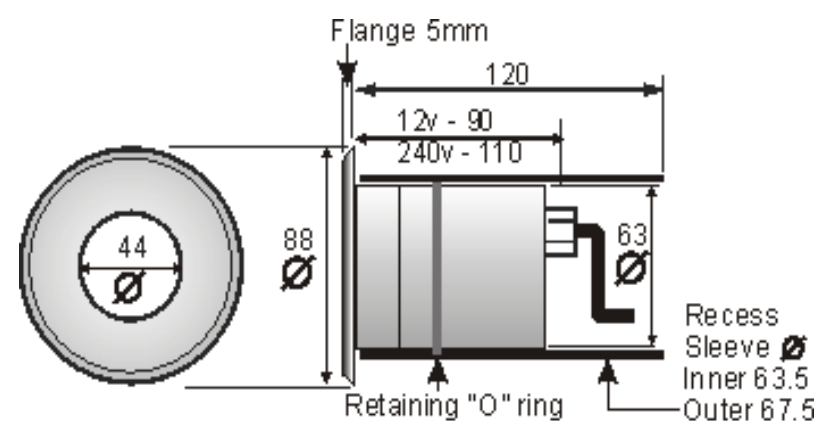

Electrical data	12v MR16.
Colour/ Finish	316 Grade Stainless Steel top and aluminium body.
Exterior Dimensions	88mm top with an 90mm x63mm body and a sleeve of 120mm x 67.5mm

Installation guidelines

The plastic sleeve is built into the wall during construction or retrofitted into a hole cut with a coring bit: the light pushes into the tube, where it is held firmly in place by an "o" ring, leaving a front plate with no visible fixing screws. Suitable drainage should be provided below each fitting to prevent water logging. Smoothies should not be installed in ground subject to water logging, an IP 68 light such as a Lumilux or Lumimax light should be considered. Connect input cable to cable from transformer using T9962 cable joint or T9963 cable splice kit.

**2 YEAR
WARRANTY**

Internal wiring
& lampholder
