

# GLMR16KIT5 - Elipta Lunar 5 LED Spot Kit

Lunar is a budget-priced adjustable IP68 spotlight with a plastic body and MR16 lampholder for use with a 3w led lamp. It has a clear lens, a 5m cable with IP44 Plug&Play connector and a clip-on glare shield for lighting small focal points, or for use as an underwater spotlight in fountains and waterfalls. This 5-spot kit comprises 5 spotlights, 5 Ground Mounting spikes, 5 MR16 3w warm white led lamps with a 36 degree beam angle, a 12va transformer rated to supply the 5 led lamps and a 5 way connector which fits to the transformer output and allows for connection of the five spotlight cables. As mounting requirements may vary, if you wish to use a mounting base, extension pole or a tube bracket to allow mounting on fountain head pipes please order separately. Lunar is designed for easy installation with the minimum of tools with the Patilo range of Plug&Play transformers, connectors, extension cables and junction boxes.
