

### GLWW1WKIT 12v deck lights Lumina starter kit

This starter kit comprises of 5 x Lumina recessed deck lights and a 12w 12v transformer. The 5 lights connect daisy chain fashion in a line up to 1.8m apart and up to 0.8m from the transformer to the first light. The transformer can be installed under the deck and plugged into a 13amp weatherproof, outdoor socket. 7 additional Lumina lights may be connected to the 12va transformer, if required

#### KIT CONTENTS

- 5 x IP67 rated Lumina deck light
- 1 x 12v 12w IP44 rated Plug&Play transformer

#### ELECTRICAL DATA

- 12v
- Each light is pre-wired with 2 x 1m HO5RN-F cable terminated with a 2 pin Plug&Play connector (1 x male and 1 x female)

#### INSTALLATION

- Simple Plug&Play installation
- Place transformer in a suitable location
- Drill 35 - 37mm holes no more than 1.8m apart in the decking to accept the lights
- Install the lights and connect the input cable of the first light to the transformer
- Connect the output cable of the first light to the input cable of the second light
- Repeat the previous step for the rest of the lights
- Plug the transformer into the mains supply and test

### COMPLIANCE & WARRANTY

- 2 year warranty
- CE / RoHS Compliant
