

## Wiring

**If not using the supplied plug then the product must be wired to a IP67 rated terminal block.**

Having correctly identified the wiring from your existing light fitting, connect to the approved outdoor rated external terminal block in the following way:

## Care and Cleaning

We recommend cleaning with a soft dry cloth.

Do not use solvents or abrasive cleaners as these could damage the finish.

To prolong the life and keep your outdoor lighting in good condition, it is recommended that periodically it is cleaned using a soft cloth followed by the application of a light coating of oil, such as WD40.

**Do not clean the units with a pressure washer.**

## Recycling advice

Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with your Local Authority or retailer for recycling advice.

## Safety information

Live Voltages may be present in the transformer even when turned off or when completely disconnected.

For your safety, always switch off the supply before maintaining the system.

**This system contains non-replaceable parts and cannot be serviced. If damage occurs the part should be scrapped.**
